Home / Policy / Federal Education Programs

ESEA Title III

Title III is responsible for the oversight of the language instruction of limited-English proficient and immigrant students. This is accomplished by:

- administering grant programs that help children develop proficiency in English and achieve high content standards;
- recommending policies and promoting best practices for meeting the needs of English language learners;
- strengthening collaboration and coordination among federal, state, and local programs serving English language learners; and
- monitoring funded programs and providing technical assistance that addresses outcomes and accountability.

Title III grant applications are due to our Title III office by July 1st of each year.
