

Connecting to Internet from Home or Other Off-Campus Location

In order to connect to a WiFi network while away from school, follow these steps:

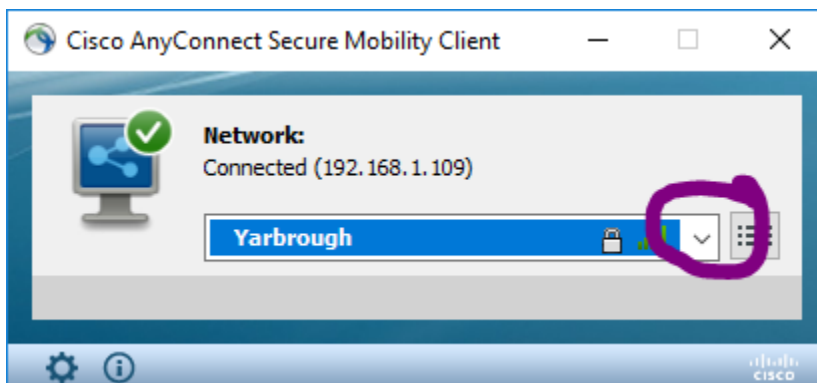

1. Click the “up” arrow at the bottom right of the screen to show hidden icons.

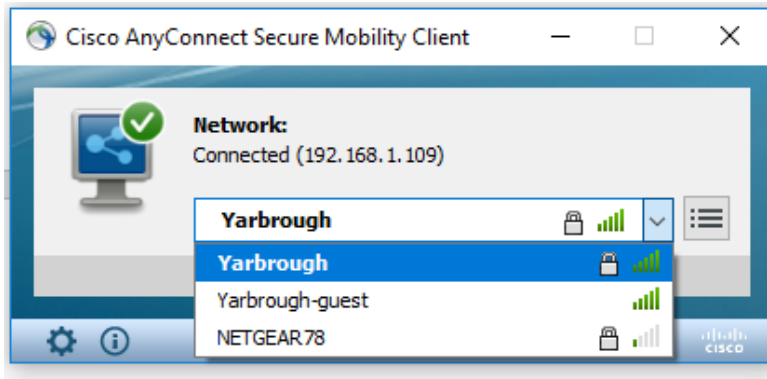

2. Choose the Cisco AnyConnect icon.

3. Click the “down” arrow to access the dropdown menu.

4. Select the WiFi network from the dropdown menu in the window.

5. Enter the network password in the "Key" box, and click "OK."
